*for Rainy Day Internet Subscribers. \$24.95 without Internet subscription.

Keep Your Current Winnipeg Phone Number

If you already have a Winnipeg phone number you can choose to opt-out of having a new phone number on the 204-272-xxxx exchange. There is a \$50 charge to port existing Winnipeg Phone Numbers.

\$89.95 Rainy Day Phone Adapter

This device, which you need to connect your home phone to the internet, enables feature-rich telephone service over your Rainy Day Internet connection. A standard telephone jack for your phone or fax machine, can support two independent phone numbers. High quality, clear sounding voice service simultaneous with Internet use.

Optional On Site Installation

Should you choose to opt-out of a self installation, a technician will visit your premises to install and connect into current house wiring. There is a non-refundable \$85 install fee that will be charged.

Data Use Overages for Phone Service

“Will the Rainy Day Phone Service cause my cause overage fees on my Internet account?”

As part of your Rainy Day Internet you are allowed at least 5 GB per month depending on your plan. VoIP does use some of your monthly allowed transfer; but very little.

If your account has already gone past the monthly limit, the overage portion of a phone call is equal to \$0.0036 per minute or 21 cents per hour. If the phone was being used 24/7 for an entire month the total overage would be \$12 for the 2.5 GB transferred.

The average four person household uses the phone for approximately 15 hours per month which equals a total of 0.05 GB of transfer.

30 Day Money Back Guarantee

Try the Rainy Day Phone Service with no risk. If you cancel the service within thirty days of signing up you will not be charged any service fees. Refunds are issued fifteen days after all equipment is returned in good working condition. Long distance fees are non-refundable.
